Section 1007. Prevention of waste or improper use.

In order to prevent any leakage or waste of water or other improper use of the Town's water system or sewage disposal system, the Town may require such changes in plumbing, fixtures or connections as it deems necessary to prevent such waste or improper use.

Section 1008. Operation and maintenance of private systems.

The Town may, by ordinance, provide that no water supply, sewerage or stormwater drainage system and no water mains, sewers, drains or connections therewith shall be constructed or operated by any person or persons, firm, corporation, institutions or community, whether upon private premises or otherwise, and may provide that cesspools or other private methods of sewage disposal shall be operated and maintained in such a manner that they do not and will not be likely to affect adversely the public comfort and health, and any cesspool or other private method of sewage disposal affecting or likely to affect adversely the public comfort and health may be deemed a nuisance and may be abated by the Town. The cost of any project to be paid, in whole or in part, by special assessments may include the direct cost thereof; the cost of any land acquired for the project; the interest on bonds, notes or other evidences of indebtedness issued in anticipation of the collection of special assessments; a reasonable charge for the services of the administrative staff of the Town; and any other item of cost which may reasonably be attributed to the project.

Section 1102. Procedure.

The procedure for special assessments, wherever authorized in this Charter, shall be as follows:

A. *Cost.* The cost of the project being charged for shall be assessed according to the front-foot rule of apportionment or some other equitable basis determined by the Commissioners.

B. *Assessments.* The amount assessed against any property for any project or improvement shall not exceed the value of the benefits accruing to the property therefrom nor shall any special assessment be levied which shall cause the total amount of special assessments levied by the Town and outstanding against any property at any time, exclusive of delinquent installments, to exceed twenty-five percent (25%) of the assessed value of the property after giving effect to the benefit accruing thereto from the project or improvement for which assessed.

C. *Uniformity.* When desirable, the affected property may be divided into different classes to be charged different rates, but, except for this, any rate shall be uniform.

D. *Notification and public hearing.* All special assessment charges shall be levied by the Commissioners by ordinance. Before levying any special assessment charges, the Commissioners shall hold a public hearing. The Town Manager shall cause notice to be given, stating the nature and extent of the proposed project, the kind of materials to be used, the estimate cost in which the assessment may be paid, the method to be used in apportioning the cost and the limits of the proposed areas of assessment. The notice shall also state the time and place at which all persons interested or their agents or attorneys may appear before the Commissioners and be heard concerning the proposed project and special assessment. Such notice shall be given by sending a copy thereof by mail to the owner of record of each parcel of property proposed to be assessed and to the person in whose name the property is assessed for taxation and by publication of a copy of the notice at least once in a newspaper published in the Town of Princess Anne and having general circulation therein. The Town Manager shall present at the hearing a certificate of publication and mailing of copies of the notice, which certificate shall be deemed proof of notice, but failure of any owner to receive the mailed copy shall not invalidate the proceedings. The date of hearing shall be set at least ten (10) and not more than thirty (30) days after the Town Manager shall have completed publication and service of notice as provided in this Section. Following the hearing, the Commissioners, in their discretion, may vote to proceed with the project and may levy the special assessment.

E. *Appeals.* Any interested person feeling aggrieved by the levying of any special assessment under the provisions of this Section shall have the right to appeal to the Circuit Court for the county within ten (10) days after the levying of any assessment by the Commissioners.

F. *Payment of special assessments.* Special assessments may be made payable in annual or more frequent installments over such period of time, not to exceed ten (10) years, and in such manner as the Commissioners may determine. The Commissioners shall determine on what date installments shall be due and payable. Interest may be charged on installments at the rate to be determined by the Commissioners.

G. *Collection of overdue installments.* All special assessment installments shall be overdue six (6) months after the date on which they became due and payable. All special assessments shall be liens on the property, and all overdue special assessments shall be collected in the same manner as Town taxes or by suit at law.

H. *Responsibility for billing and collection.* All special assessments shall be billed and collected by the Town Manager.

#### Section A1-103. Establishment of Urban Renewal Agency.

The municipality may itself exercise all the powers granted by this appendix or may, if its legislative body by ordinance determines such action to be in the public interest, elect to have such powers exercised by a separate public body or agency as hereinafter provided. In the event said legislative body makes such determination, it shall proceed by ordinance to establish a public body or agency to undertake in the municipality the activities authorized by this appendix. Such ordinance shall include provisions establishing the number of members of such public body or agency, the manner of their appointment and removal, the terms of said members and their compensation. The ordinance may include such additional provisions relating to the organization of said public body or agency as may be necessary. In the event the legislative body enacts such an ordinance, all of the powers by this appendix granted to the municipality shall, from the effective date of said ordinance, be vested in the public body or agency thereby established, except:

(1) The power to pass a resolution to initiate an urban renewal project pursuant to Section A1-104 of this appendix;

(2) The power to issue general obligation bonds pursuant to Section A1-109 of this appendix; and

(3) The power to appropriate funds, and to levy taxes and assessments pursuant to Section A1-102(3) of this appendix.

Section A1-104. Initiation of Project.

In order to initiate an urban renewal project, the legislative body of the municipality shall adopt a resolution which:

- (1) finds that one or more slum or blighted areas exist in such municipality;
- (2) locates and defines the said slum or blighted areas; and
- (3) finds that the rehabilitation, redevelopment, or a combination thereof, of such area or areas, is necessary in the interest of the public health, safety, morals or welfare of the residents of such municipality.

Section A1-105. Preparation and Approval of Plan for Urban Renewal Project.

(a) The municipality, in order to carry out the purposes of this appendix, shall prepare or cause to be prepared an urban renewal plan for slum or blighted areas in the municipality, and shall formally approve such plan. Prior to its approval of an urban renewal project, the municipality shall submit such plan to the planning body of the municipality, for review and recommendations as to its conformity with the master plan for the development of the municipality as a whole. The planning body shall submit its written recommendation with respect to the proposed urban renewal plan to the municipality within sixty days after receipt of the plan for review; upon receipt of the recommendations of the planning body or, if no recommendations are received within said sixty days, then without such recommendations, the municipality may proceed with a public hearing on the proposed urban renewal project. The municipality shall hold a public hearing on an urban renewal project after public notice thereof by publication in a newspaper having a general circulation within the corporate limits of the municipality. The notice shall describe the time, date, place and purpose of the hearing, shall generally identify the urban renewal area covered by the plan, and shall outline the general scope of the urban renewal project under consideration. Following such hearing, the municipality may approve an urban renewal project and the plan therefor if it finds that: (1) a feasible method exists for the location of any families who will be displaced from the urban renewal area in decent, safe and sanitary dwelling accommodations within their means and without undue hardship to such families; (2) the urban renewal plan substantially conforms to the master plan of the municipality as a whole; and (3) the urban renewal plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise.

(b) An urban renewal plan may be modified at any time, provided that if modified after the lease or sale of real property in the urban renewal project area, the modification may be conditioned upon such approval of the owner, lessee or successor in interest as the municipality may deem advisable and in any event shall be subject to such rights at law or in equity as a lessee or purchaser, or his successor or successors in interest, may be entitled to assert. Where the proposed modification will substantially change the urban renewal plan as previously approved by the municipality, the modification shall be formally approved by the municipality as in the case of an original plan.

(c) Upon the approval by the municipality of an urban renewal plan or of any modification thereof, such plan or modification shall be deemed to be in full force and effect for the respective urban renewal area and the municipality may then cause such plan or modification to be carried out in accordance with its terms.

Section A1-106. Disposal of Property in Urban Renewal Area.

(a) The municipality may sell, lease or otherwise transfer real property or any interest therein acquired for it by an urban renewal project, for residential, recreational, commercial, industrial, educational or other uses or for public use, or may retain such property or interest for public use, in accordance with the urban renewal plan, subject to such covenants, conditions and restrictions, including covenants running with the land, as it may deem to be necessary or desirable to assist in preventing the development or spread of future slums or blighted area or to otherwise carry out the purposes of this appendix. The purchasers or lessees and their successors and assigns shall be obligated to devote such real property only to the uses specified in the urban renewal plan, and may be obligated to comply with such other requirements as the municipality may determine to be in the public interest, including the obligation to begin within a reasonable time any improvements on such real property required by the urban renewal plan. Such real property or interest shall be sold, leased, otherwise transferred, or retained at not less than its fair value for uses in accordance with the urban renewal plan. In determining the fair value of real property for uses in accordance with the urban renewal plan, the municipality shall take into account and give consideration to the uses provided in such plan; the restrictions upon, and the covenants, conditions and obligations assumed by the purchaser or lessee or by the municipality retaining the property; and the objectives of such plan for the prevention of the recurrence of slum or blighted areas. The municipality in any instrument of conveyance to a private purchaser or lessee may provide that such purchaser or lessee shall be without power to sell, lease or otherwise transfer the real property without the prior written consent of the municipality until he has completed the construction of any or all improvements which he has obligated himself to construct thereon. Real property acquired by the municipality which, in accordance with the provisions of the urban renewal plan, is to be transferred, shall be transferred as rapidly as feasible in the public interest consistent with the carrying out of the provisions of the urban renewal plan. Any contract for such transfer and the urban renewal plan (or such part or parts of such contract or plan as the municipality may determine) may be recorded in the Land Records of the county in which the municipality is situated in such manner as to afford actual or construction notice thereof.

(b) The municipality may dispose of real property in an urban renewal area to private persons only under such reasonable competitive bidding procedures as it shall prescribe or as hereinafter provided in this subsection. The municipality may, by public notice by publication in a newspaper having a general circulation in the community (not less than sixty days prior to the execution of any contract to sell, lease or otherwise transfer real property and prior to the delivery of any instrument of conveyance with respect thereto under the provisions of this section) invite proposals from and make available all pertinent information to private redevelopers or any persons interested in undertaking to redevelop or rehabilitate an urban renewal area, or any part thereof. Such notice shall identify the area, or portion thereof, and shall

state that proposals shall be made by those interested within a specified period of not less than sixty days after the first day of publication of said notice, and that such further information as is available may be obtained at such office as shall be designated in said notice. The municipality shall consider all such redevelopment or rehabilitation proposals and the financial and legal ability of the persons making such proposal to carry them out, and may negotiate with any persons for proposals for the purchase, lease or other transfer of any real property acquired by the municipality in the urban renewal area. The municipality may accept such proposal as it deems to be in the public interest and in furtherance of the purposes of this appendix. Thereafter, the municipality may execute and deliver contracts, deeds, leases and other instruments and take all steps necessary to effectuate such transfers.

(c) The municipality may temporarily operate and maintain real property acquired by it in an urban renewal area for or in connection with an urban renewal project pending the disposition of the property as authorized in this appendix, without regard to the provisions of subsection (a) above, for such uses and purposes as may be deemed desirable even though not in conformity with the urban renewal plan.

(d) Any instrument executed by the municipality and purporting to convey any right, title or interest in any property under this appendix shall be conclusively presumed to have been executed in compliance with the provisions of this appendix insofar as title or other interest of any bona fide purchaser, lessees or transferees of such property is concerned.

#### Section A1-107. Eminent Domain.

Condemnation of land or property under the provisions of this appendix shall be in accordance with the procedure provided in the Real Property Article of the Annotated Code of Maryland.

#### Section A1-108. Encouragement of Private Enterprise.

The municipality, to the greatest extent it determines to be feasible in carrying out the provisions of this appendix, shall afford maximum opportunity, consistent with the sound needs of the municipality as a whole, to the rehabilitation or redevelopment of any urban renewal area by private enterprise. The municipality shall give consideration to this objective in exercising its powers under this appendix.

#### Section A1-109. General Obligation Bonds.

For the purpose of financing and carrying out of an urban renewal project and related activities, the municipality may issue and sell its general obligation bonds. Any bonds issued by the municipality pursuant to this section shall be issued in the manner and within the limitations prescribed by applicable law for the issuance and authorizations of general obligation bonds by such municipality, and also within such limitations as shall be determined by said municipality.

Section A1-110. Revenue Bonds.

(a) In addition to the authority conferred by Section A1-109 of this appendix, the municipality shall have the power to issue revenue bonds to finance the undertaking of any urban renewal project and related activities, and shall also have power to issue refunding bonds for the payment or retirement of such bonds previously issued by it. Such bonds shall be made payable, as to both principal and interest, solely from the income, proceeds, revenues, and funds of the municipality derived from or held in connection with its undertaking and carrying out of urban renewal projects under this appendix; provided, however, that payment of such bonds, both as to principal and interest, may be further secured by a pledge of any loan, grant or contribution from the Federal Government or other source, in aid of any urban renewal projects of the municipality under this appendix, and by a mortgage of any such urban renewal projects, or any part thereof, title to which is in the municipality. In addition, the municipality may enter into an Indenture of Trust with any private banking institution of this State having trust powers and may make in such indenture of trust such covenants and commitments as may be required by any purchaser for the adequate security of said bonds.

(b) Bonds issued under this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, shall not be subject to the provisions of any other law or charter relating to the authorization, issuance or sale of bonds, and are hereby specifically exempted from the restrictions contained in Sections 9, 10, and 11 of Article 31 of the Annotated Code of Maryland (1957 Edition; as amended). ## NOTES

- (1) Thus in the resolution of 4–8–58.
- (2) A copy of the plat referred to in this subsection is on file and open to public inspection in the office of the Town Manager.
- (3) In 1960, the Town of Princess Anne, at the State’s request, relinquished its water and sewer activities to the Somerset County Sanitary District. The actual water and sewer powers have been retained by the Town, however, in the event the Town of Princess Anne should once again undertake water and sewer activities.
- (4) Repealed.
- (5) In the first sentence of Section 807, the term “reserved or” was added in the 1995 Supplement pursuant to correspondence to the Department of Legislative Reference from the town attorney in September, 1994 that confirmed that the change was a technical correction.
- (6) Resolution 1995–02, effective April 20, 1995, provided for annexation of 1.918 acres of land (Bruce Property), and Resolution 1995–3, effective April 20, 1995, provided for the annexation of 60,005 square feet (Heckman Property). The Resolutions, however, failed to provide for the change in the boundary description that is contained in this charter. Accordingly, these annexations are simply noted pursuant to the municipal general powers section of this charter.

However, since Section 202 T, U, and V are already in existence, these changes have been designated as Section 202 W, X, and Y, respectively.
