(9) to regulate and control the construction or installation by any corporation or individual of any main, conduit, pipe or other structure in any public way or street in Cambridge, and in any public highway outside Cambridge occupied by any portion of the water supply, sanitary or storm water sewer system of said municipality, so as to prevent interference with the maintenance and operation of any such system, and to require all individuals and corporations having mains, pipes, conduits or other structures in, on or over any such public way which impede the establishment, construction, reconstruction or operation of the water supply, sanitary or storm water sewer system of said municipality, upon reasonable notice, to remove or adjust the obstruction to the satisfaction of the city engineer or any commission of the Commissioners of Cambridge administering said systems and, if necessary, to exercise the powers of condemnation hereinabove conferred to remove any such obstructions;

(10) to enter upon any public way of Dorchester County (except state highways) for the purpose of constructing, reconstructing, installing or repairing any pipes,

mains or other equipment, or doing any other things necessary to the establishment, maintenance, repair and operation of the water supply, sanitary and storm water sewer systems of said municipality, provided, however, that in taking any such action, the Commissioners of Cambridge or any agent or commission exercising the powers of said municipality shall comply in all respects with the Public Local Laws of Dorchester County and the Public General Laws of Maryland relating to or governing the installation of municipal utilities in any public ways;

(11) to delegate to any qualified employee or agent of the Commissioners of Cambridge or of any commission thereof, established pursuant to section 3-43 of the City Charter, while in the necessary pursuit of his official duties with regard to the water supply and sanitary or storm water sewer systems of said municipality, the right of entry at all reasonable hours and after reasonable advance notice to the owner, tenant or person in possession, upon any private premises and into any building in Cambridge or in those portions of Dorchester County served by the water supply and sanitary or storm water sewer systems of said municipality;

If all, or any part of a project costing more than \$5,000.00, is to be constructed, the city may contract for such construction, the contract or contracts, however, not to be entered into until competitive bids therefor have been called for by advertisement published for at least two weeks in one or more newspapers published in Dorchester County. If such competitive bids are called for, the city shall furnish all prospective bidders with copies of identical and complete plans and specifications upon which to make their bids and shall name in said advertisement a time when and a place where the bids will be opened and considered, and shall reserve in said advertisement the right to reject any and all bids and the right to require a satisfactory surety bond conditioned on completion of construction. The city shall accept the bid of the lowest responsible bidder and award a suitable contract for such construction to said lowest responsible bidder unless all bids are rejected or unless the city, acting on the advice of its City Engineer, publicly finds that the proposal or product of a higher bidder is superior and will serve the community better. (1961 Code, sec. 99. 1947, ch. 339, sec. 114C.)

Section 3–54. Details of operation.

If and when construction or acquisition of a project is definitely contracted for the city shall delegate to a public commission the powers herein conferred on the city of operation, maintenance, repair, improvement and reconstruction of such project, as well as the powers to distribute and sell the electric energy produced thereby and to charge and collect for such energy the rates, fees and charges fixed by the city. Said commission shall be known as the municipal utilities commission and shall consist of three members, all residents of Cambridge, one of whom shall be appointed as chairman, and shall be established by municipal ordinance which, in addition to the provisions hereof, shall prescribe its duties in detail and the compensation of the members thereof. The members of said commission shall be appointed by a majority vote of the Commissioners of Cambridge for initial terms of ten, eight and six years each and thereafter for equal terms of ten years, and one of the members so appointed shall be affiliated with the principal minority party in the city. Any person appointed to said commission may be removed therefrom for misfeasance or malfeasance in office by a two-thirds vote of the Commissioners of Cambridge after due notice to such person of the charges against him and a public hearing on such charges, and any vacancy on said commission created by removal, resignation or death of a member shall be filled by the Commissioners of Cambridge for the unexpired term for which such member was appointed. Said commission shall collect and hold on behalf of the city all

charges, fees and rates realized from the operation of the project and shall disburse or deduct from the fund so created all costs and expenses, or reserves therefor, of operation, maintenance, insurance and repair. Subject to approval by the Commissioners of Cambridge, said commission may employ such consulting, technical, operating and clerical personnel as may be needed for the most economical and efficient operation of the project. Every six months the commission shall make a report to the city of its operations, including a financial statement and every three months it shall pay over to the city the net revenues from the project after deduction of the disbursements, expenses and reserves above provided for. The city shall first use the revenues so derived from the project for servicing its outstanding revenue or general obligation bonds issued in connection with the project as hereinafter provided, and after making the payments, if any, necessary for that purpose, the city may add the balance of said net revenues to its general funds for appropriation to any lawful municipal purpose. (1961 Code, sec. 100. 1947, ch. 339, sec. 114D.)

Section 3-55. General obligation bonds.

If the city shall determine that all or any part of a project be acquired by purchase, and if it shall also determine that all or any part of the cost of acquisition shall be borne by the city, it may finance said cost of acquisition by borrowing the requisite sum or sums of money on its full faith and credit, evidencing such borrowing by the issuance and sale at public or private sale of its general obligation bonds in par amount equal to the amount of such borrowing. Such bonds shall be authorized by ordinance and shall be issued in such form as said ordinance may prescribe, provided, however, that said bonds may be issued on a sinking fund or on a serial maturity plan, and if on a serial maturity plan, the last maturity shall not be longer than thirty years from the date of issue. Said bonds shall bear interest at a rate not to exceed four per centum per annum. Said bonds are hereby exempted from the provisions of Sections 34, 35 and 36 of Article 31 of the Code of Public General Laws of Maryland (1939 Edition) and no limitations on the taxing powers of the city shall constitute any limitation on its power hereby granted to levy upon all assessable property within the corporate limits of the city ad valorem taxes, without limit as to rate or amount, sufficient in each year to provide funds for the payment of the principal and interest of said bonds. Such taxes shall be levied and collected in the same manner as other ad valorem taxes of the city are levied and collected in the same manner as other ad valorem taxes of the city are levied and collected and shall have the same priority and lien as such other taxes. Said bonds and the interest paid thereon in the hands of the persons entitled thereto, from time to time, shall be and remain exempt from all state, county and municipal taxation of any kind and nature whatsoever in the State of Maryland. Notwithstanding the provisions hereof for the issuance of such bonds on the full faith and credit of the city and the payment of the principal and interest of the said bonds from the ad valorem taxes hereby authorized to be levied, such principal and interest shall, to the extent possible, be paid in any year that any of said bonds are outstanding from any surplus revenues or net profits of the project, with respect to which said bonds were issued, not needed for the payment of the principal and interest of the revenue bonds hereinafter authorized. Said general obligation bonds may be made redeemable before maturity in whole or in part at the option of the city, at such price or prices and under such terms and conditions as may be fixed by the city at the time of issuance and the funds for such redemption may be provided by the issue and sale of additional revenue bonds as hereinafter authorized. If said bonds are issued on a sinking fund plan, deposits

into said sinking fund shall, to the extent available, be made from the surplus of net revenues of the project with respect to which said bonds were issued, and if, at maturity, said sinking fund is inadequate for the payment of all of said bonds, the additional funds necessary for such payment shall, if possible, be provided by the issuance of additional revenue bonds in the manner hereinafter authorized. The authority conferred by this section shall cease and determine if the cost of acquisition or cost of construction of a project for the city shall be initially financed by the issuance of revenue bonds, and said authority shall be exhausted by one issue of general obligation bonds hereunder. Unless they are inappropriate or in conflict with the provisions of this section, the provisions of section 3–56 specifying the terms and conditions of the revenue bonds shall be applicable to the general obligations bonds above authorized. (1961 Code, sec. 101. 1947, ch. 339, sec. 114E.) (See note (8))

Section 3–56. Revenue bonds.

(a) *Authorized.* The revenue bonds authorized to be issued hereby shall not constitute a debt of the city or a pledge of its faith and credit but such bonds, and the interest thereon, shall be payable solely from the revenues of a project. The city is hereby authorized and empowered by ordinance, at one time and from time to time, to borrow money to pay the cost of acquisition or the cost of construction or both of a project and to issue its revenue bonds in the manner hereinafter prescribed to evidence such borrowing. Each of such bonds shall contain a statement on its face to the effect that the city is not obligated to pay the same or the interest thereon except from the revenues of a project and that the faith and credit of the city are not pledged to the payment of the principal and interest of the bonds. Before issuing any such revenue bonds, the city shall make or obtain (1) an estimate of cost of acquisition of a project or the cost of its construction or both to be defrayed by the money to be realized from the issuance of such bonds, (2) an estimate of the annual revenues of the project and (3) an estimate of the annual cost of maintaining, repairing and operating the project, and no money shall be borrowed and no revenue bonds issued to evidence such borrowing unless the city is satisfied from such estimates that the annual revenues of the project will be sufficient to pay the cost of maintaining, repairing and operating it and, also, the interest on such bonds and the principal thereof as such interest and principal shall become due.

(b) *Form.* Such revenue bonds shall be dated, shall bear interest at such rate or rates not exceeding four percentum per annum, payable semi-annually, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the city, and may be made redeemable before maturity, at the option of the city, at such price or prices and under such terms and conditions as may be fixed by the city prior to the issuance of the bonds. The principal and interest of such bonds may be made payable in any lawful medium. The city shall determine the form of the bonds and the interest coupons to be attached thereto, the manner of executing the bonds and coupons, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or without the state. In case any officer whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All revenue bonds issued under the provisions hereof shall have and are hereby declared to have, as between successive holders, all the qualities and

incidents of negotiable instruments under the negotiable instruments law of the state to the extent provided by section 33 of article 31, Code of Public General Laws of Maryland (1939 Edition). Provisions may be made for the registration of any of the bonds in the name of the owner as to principal alone and also as to both principal and interest, and for the reconversion of any of the bonds registered as to both principal and interest into coupon bonds. Such bonds may be issued without regards to any limitation on indebtedness prescribed by any other law and shall not be included in the amount of bonds which the city may be authorized to issue under any statute or under its Charter. The city may sell such bonds in such manner and for such price as it may determine to be for the best interest of the city, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than four per centum per annum, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any redemption premium. Such bonds shall not be subject to the provisions of sections 34, 35, and 36 of article 31, Code of Public General Laws of Maryland (1939 Edition).

(c) *Use of proceeds.* The proceeds of such bonds shall be used solely for the payment of the costs of acquisition or construction of the project they are issued to defray, or applied to the sinking fund created for the payment of such bonds, and such proceeds shall be disbursed in such manner and under such restrictions, if any, as the city may provide. There shall be and there hereby is created and granted a lien upon such moneys until so used in favor of the holders of such bonds or the trustee hereinafter provided for in respect of such bonds. If the proceeds of such bonds, by error of calculation or otherwise, shall be less than said costs, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the ordinance or in the trust agreement hereinafter mentioned, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority over the bonds first issued for the project. If the proceeds of bonds issued for the project shall exceed said costs the surplus shall be paid into the fund hereinafter provided for the payment of principal and interest of such bonds.

(d) *Temporary bonds; replacement of bonds.* Prior to the preparation of definitive bonds, the city may, under like restrictions, issue interim receipts, interim certificates, or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery. The city may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost. Such revenue bonds may be issued without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specified and required hereby.

(e) *Tax exemption.* Said revenue bonds and the interest paid thereon, in the hands of the persons entitled thereto, from time to time, shall be and remain exempt from all state, county and municipal taxation of any kind and nature whatsoever in the State of Maryland.

(f) *Restrictions.* The ordinance providing for the issuance of the revenue bonds and the trust agreement hereinafter authorized, may also contain such limitations upon the issuance of additional revenue bonds, with respect to the project, as the city may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by

such ordinance or trust agreement. (1961 Code, sec. 102. 1947, ch. 339, sec. 114F.) (See note (9))

Section 3-57. All moneys to be trust funds.

All moneys received by the city, its municipal utilities commission or by any bank or trust company, acting as trustee or depository, pursuant to the authority hereof, whether as proceeds from the sale of revenue bonds, or as rates, charges, fees and other revenues, shall be deemed to be trust funds, to be held and applied solely as provided herein. The city shall, in the ordinances authorizing the issuance of general obligation or revenue bonds, or in any trust agreement covering revenue bonds provide that all persons or officials receiving payment of the proceeds of the sale of such bonds and the rates, charges, fees and other revenues to be received from the project shall act as trustees of such funds, and hold and apply the same to the purposes hereof, subject to such regulations as such ordinance or trust agreement may provide. (1961 Code, sec. 103. 1947, ch. 339, 114G.)

Section 3-58. Trust agreement.

In the discretion of the city, each and any issue of revenue bonds may be secured by a trust agreement by and between the city and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of this State. Such trust agreement may pledge or assign the net rates, fees, charges and revenues to be received, but shall not convey or mortgage the project or any part thereof. Either the ordinance providing for the issuance of revenue bonds or such trust agreement may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the city in relation to the acquisition, construction, improvement, maintenance, operation, repair and insurance of the project, and the custody, safeguarding and application of all moneys, and may also require that the security given by contractors and by any depository of the proceeds of the bonds or revenues of the project or other moneys pertaining thereto be satisfactory to such purchasers. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depository and to furnish such indemnifying bonds or to pledge such securities as may be required by the city. Such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders as is customary in trust indentures securing bonds and debentures of corporations. In addition to the foregoing, such trust agreement may contain such other provisions as the city may deem reasonable and proper for the security of bondholders. Except as herein otherwise provided, the city may provide, by ordinance or by such trust agreement, for the payment of the proceeds of the sale of the bonds to such officer, commission, board or depository as it may determine for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out [the] trust agreement may be treated as a part of the cost of maintenance, operation and repair of the project. (1961 Code, sec. 104. 1947, ch. 339, sec. 114H.)

Section 3–59. Revenues of project.

All rates, fees and other charges and all other revenues derived from the project, except such part thereof as may be required by the municipal utilities commission to pay the cost of maintaining, repairing and operating the project, including reserves therefor, and as may be allocated to such expenses in the ordinance authorizing the issuance of revenue bonds or in the trust agreement, or such part of said revenues as may be required by such ordinance or trust agreement, shall be set aside at such regular intervals as may be provided in such ordinance or such trust agreement, in a sinking fund which shall be pledged to, and charged with the payment of, (1) the interest upon such revenue bonds as such interest shall fall due, (2) the principal of the revenue bonds as the same shall fall due, (3) the necessary charges of paying agents for paying the principal and interest, (4) any premium upon bonds retired by call or purchase as herein provided, and (5) the principal and interest of any general obligation bonds issued hereunder. The use and disposition of such sinking fund shall be subject to such regulations as may be provided in the ordinance authorizing the issuance of the revenue bonds or in the trust agreement, but, except as may otherwise be provided in such ordinance or trust agreement, such sinking fund shall be a fund for the benefit of all revenue bonds without distinction or priority of one over another. The moneys in such sinking fund shall be applied to the purchase or redemption of revenue and general obligation bonds in accordance with the provisions of the ordinance authorizing the issuance of the revenue bonds or of the trust agreement. All bonds so purchased or redeemed shall forthwith be cancelled and shall not again be issued. (1961 Code, sec. 105. 1947, ch. 339, sec. 114–I.)

Section 3–60. Remedies of bondholders and trustee.

(a) *Grant.* Any holder of any revenue bonds issued under the provisions hereof or any of the coupons attached thereto, and the trustee under the trust agreement, if any, except to the extent the rights herein given may be restricted by the ordinance passed before the issuance of the revenue bonds or by the trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce any and all rights under the laws of the State of Maryland or granted hereunder or under such ordinance or trust agreement, and may enforce and compel the performance of all duties required hereby, or by such ordinance or trust agreement to be performed by the city or by any officer thereof, including the fixing, charging and collecting of the rates, fees and other charges for the use of the project or for the services and energy furnished thereby.

(b) *Default.* In the event the city shall default in the payment of the principal of or the interest on any of the revenue bonds as the same become due, whether at maturity or upon call for redemption, and such default shall continue for a period of sixty days, or in the event that the city or any of its officers, agents or employees shall fail or refuse to comply with the provisions hereof or shall default in any agreement made with the holders of the revenue bonds, any holder of such bonds, subject to the provisions of the ordinance authorizing the same or the trust agreement, or the trustee therefor, shall have the right to apply in any appropriate judicial proceeding to any court of competent jurisdiction, for the appointment of a receiver of the project, whether or not all bonds shall have been declared due and payable and whether or not such holder or trustee is seeking or has sought to enforce any other right or to exercise any other

remedy in connection with such bonds, and upon such application the court may appoint such receiver.

(c) *Restrictions on receiver.* Notwithstanding anything in this section to the contrary, any such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of whatever kind or character belonging to and useful for the project, and the authority of any such receiver shall be limited to the operation and maintenance of the project in receivership and no court shall have jurisdiction to enter any order or decree requiring or permitting such receiver to sell, mortgage, or otherwise dispose of any such assets. (1961 Code, sec. 106. 1947, ch. 339, sec. 114J.)

#### Section 3–61. Revenue refunding bonds.

The city is hereby authorized to provide by ordinance for the issuance of its revenue refunding bonds for the purpose of refunding any general obligation or revenue bonds then outstanding and issued under the provisions hereof. The issuance of such revenue refunding bonds, the maturities and other details thereof, and the duties of the city in respect to the same, shall be governed by the foregoing provisions hereof insofar as the same may be applicable; provided, however, that no revenue refunding bonds shall be issued except in exchange for general obligation or revenue bonds to be refunded thereby or in the amount necessary to provide for the payment of matured general obligation or revenue bonds or bonds maturing or redeemable within six months or unmatured general obligation or revenue bonds which can be acquired for retirement, including any redemption premium and accrued interest thereon. (1961 Code, sec. 107. 1947, ch. 339, 114K.)

#### Section 3–62. Use of revenues after payment of bonds.

Upon the final payment of all revenue bonds or revenue refunding bonds issued with respect to the project, all rates, fees or other charges thereafter received or collected by the municipal utilities commission in the operation of such project shall be first applied by said commission to the costs of maintenance, operation, repair and insurance of such project as hereinabove provided, and the balance of any such receipts and collections remaining after the payment of such costs and the establishment of adequate depreciation reserves shall become the absolute property of the city to be used by it for any public purpose. All funds held by any trustee under any trust indenture, executed as hereinabove authorized, shall, upon the final payment of any such revenue bonds or revenue refunding bonds with respect to the project, be paid to the city and may be applied by the city to any public purpose. (1961 Code, sec. 108. 1947, ch. 339, sec. 114L.)

#### Section 3–63. Project tax exempt.

So long as the city shall retain title to the project, such project and the revenues derived therefrom shall be and remain exempt from all taxation of any kind and nature whatsoever by this state or by any county or municipality of this state. (1961 Code, sec. 109. 1947, ch. 339, sec. 114M.)

Section 3–64. Exclusive operation.

As soon as the project shall have been completed and put in operation, the city may provide by ordinance that there shall be no lighting at municipal expense of the streets, alleys, squares, lanes, highways, public buildings or other public places within the corporate limits of the city except by electrical or other appliances owned, operated and maintained by said project. The municipal utilities commission may contract to sell power to any other municipality, county or public body at approved rates, and the revenue derived from such sales shall be treated as part of the revenues of the project. (1961 Code, sec. 110. 1947, ch. 339, sec. 114N.)

Section 3–65. Sale of project.

The city shall be without power or authority to alien, lease, sell or otherwise dispose of a project unless provisions for such sale, lease or disposition shall be made by ordinance and submitted to and approved by a majority of the voters of the city at a regular or special election called for that purpose upon such notice and in the same manner as other regular and special elections are held, and so long as the city shall retain title to said project and shall maintain and operate the same as herein provided, to powers heretofore granted to the city to grant franchises for the purpose of supplying electric energy to the residents of Cambridge are hereby suspended. (1961 Code, sec. 111. 1947, ch. 339, sec. 114–O.)

Section 3–66. Contributions.

In addition to funds that may be received from the sale of its general obligation and revenue bonds, or in lieu thereof, the city may accept from any federal agency, grants of money for a project, and it may borrow all or a part of its requirements from any such federal agency pursuant to the authority hereof and in the manner prescribed hereby. (1961 Code, sec. 112. 1947, ch. 339, sec. 114P.)

Section 3–67. Additional powers.

Notwithstanding any of the foregoing provisions, the city may exercise, in aid of a project, any and all powers which it may now or may hereafter possess under the laws of the State of Maryland, and may pass such ordinances, from time to time, to further the project provided the same are not inconsistent with the powers hereby granted. (1961 Code, sec. 113. 1947, ch. 339, sec. 114Q.) (See note (10))

The regulation herein provided for the taxicab industry in Cambridge shall be in addition to any regulation by the Commissioner of Motor Vehicles of Maryland or the Public Service Commission of Maryland. Any person, firm or corporation subject to this subtitle who shall be dissatisfied with any ordinance of the Commissioners of Cambridge, enacted pursuant to the authority therein conferred, may commence any action in the Circuit Court for Dorchester County against said commissioners to vacate and set aside any such ordinance on the ground that the regulation, practice, act or service established by such ordinance is unreasonable or unlawful. The decision of the circuit court shall be appealable to the Court of Appeals of Maryland by either party. (1961 Code, § 126; 1946, Ch. 414, § 115B.) (See note (11))

### Section 3–81. Penalty provisions.

Any person, firm or corporation violating any ordinance promulgated under the authority of this subheading shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not more than two hundred fifty dollars (\$250.00) for each offense. In addition, the Commissioners of Cambridge, upon proof of any violation of any ordinance promulgated under this subtitle, shall have authority to revoke or suspend any license issued under the authority thereof after according reasonable opportunity to the licensee to be heard in his, her or its defense. (1961 Code, § 127; 1949, Ch. 414, § 115C.) (See note (12))

(Charter Amdt. No. 16, 4–20–65; Charter Amdt. No. 98–79–5, § 1, 11–27–79.)

## Infractions and Misdemeanors.

### Section 3–83. Enforcement of ordinances.

(a) To ensure the observance of the ordinances of the city, the council has the power to provide that violation thereof shall be a misdemeanor, unless otherwise specified as an infraction, and has the power to affix thereto penalties of a fine not exceeding five hundred dollars (\$500.00) or imprisonment for not exceeding ninety (90) days, or both such fine and imprisonment. Any person subject to any fine, forfeiture, or penalty has the right of appeal within ten (10) days to the circuit court of the county in which the fine, forfeiture or penalty was imposed. The council may provide that, if the violation is of a continuing nature and is persisted in, a conviction for one violation shall not be a bar to a conviction for a continuation of the offense subsequent to the first or any succeeding conviction.

(b) (1) The council may provide that violations of any municipal ordinance shall be a municipal infraction unless that violation is declared to be a felony or misdemeanor by the laws of the state or other ordinance. For purposes of this section a municipal infraction is a civil offense.

(2) A fine not to exceed one hundred dollars (\$100.00) may be imposed for each conviction of a municipal infraction. (3) Any person receiving a citation for an infraction may elect to stand trial for the offense by notifying the city in writing of this intention at least five (5) days prior to the date set for payment of the fine. Failure to pay the fine or to give notice of intent to stand trial may result in an additional fine or adjudication by the court.

(4) Adjudication of a municipal infraction is not a criminal conviction for any purpose nor does it impose any of the civil disabilities ordinarily imposed by a criminal conviction. (Charter Amdt. No. 93–78–3, 7–24–78.)

## General Powers

### Section 3–84. General Powers.

In addition to all powers granted to the Council by this Charter or any other provision of law, the Council may exercise any power or perform any function which is not now or hereafter denied to it by the Constitution of Maryland, this Charter, or any applicable law passed by the General Assembly of Maryland. (j) “Municipality” shall mean the Commissioners of Cambridge, a municipal corporation of this State.

#### Section A1-102. Powers.

The municipality is hereby authorized and empowered to carry out urban renewal projects; to acquire in connection with such projects, within the corporate limits of the municipality, land and property of every kind and any right, interest, franchise, easement or privilege therein, including land or property and any right or interest therein already devoted to public use by purchase, lease, gift, condemnation or any other legal means; to sell, lease, convey, transfer or otherwise dispose of any of said land or property, regardless of whether or not it has been developed, redeveloped, altered or improved and irrespective of the manner or means in or by which it may have been acquired, to any private, public or quasi public corporation, partnership, association, person or other legal entity. No land or property taken by the municipality for any of the aforementioned purposes or in connection with the exercise of any of the powers which by this appendix are granted to the municipality by exercising the power of eminent domain shall be taken without just compensation, as agreed upon between the parties, or awarded by a jury, being first paid or tendered to the party entitled to such compensation. All land or property needed or taken by the exercise of the power of eminent domain by the municipality for any of the aforementioned purposes or in connection with the exercise of any of the powers granted by this appendix is hereby declared to be needed or taken for public uses and

purposes. Any or all of the activities authorized pursuant to this section shall constitute governmental functions undertaken for public uses and purposes and the power of taxation may be exercised, public funds expended and public credit extended in furtherance thereof. The municipality is hereby granted the following additional powers which are hereby found and declared to be necessary and proper to carry into full force and effect the specific powers hereinbefore granted and to fully accomplish the purposes and objects contemplated by the provisions of this section:

(1) to make or have made all surveys and plans necessary to the carrying out of the purposes of this appendix and to adopt or approve, modify and amend such plans, which plans may include but shall not be limited to: (i) plans for carrying out a program of voluntary or compulsory repair and rehabilitation of buildings and improvements, (ii) plans for the enforcement of codes and regulations relating to the use of land and the use and occupancy of buildings and improvements and to the compulsory repair, rehabilitation, demolition, or removal of buildings and improvements; and (iii) appraisals, title searches, surveys, studies, and other plans and work necessary to prepare for the undertaking of urban renewal projects and related activities; and to apply for, accept and utilize grants of funds from the Federal Government for such purposes;

(2) to prepare plans for the relocation of persons (including families, business concerns and others) displaced from an urban renewal area, and to make relocation payments to or with respect to such persons for moving expenses and losses of property for which reimbursement or compensation is not otherwise made, including the making of such payments financed by the Federal Government;

(3) to appropriate such funds and make such expenditures as may be necessary to carry out the purposes of this appendix, including, but not limited to, the payment of any and all costs and expenses incurred in connection with, or incidental to, the acquisition of land or property, as aforesaid, and for the demolition, removal, relocation, renovation or alteration of land, buildings, streets, highways, alleys, utilities or services, and other structures or improvements, and for the construction, reconstruction, installation, relocation or repair of streets, highways, alleys, utilities or services, in connection with urban renewal projects; and to levy taxes and assessments for such purposes; to borrow money and to apply for and accept advances, loans, grants, contributions and any other form of financial assistance from the Federal Government, the State, county or other public bodies, or from any sources, public or private, for the purposes of this appendix, and to give such security as may be required therefor; to invest any urban renewal funds held in reserves or sinking funds or any such funds not required for immediate disbursement, in property or securities which are legal investments for other municipal funds[;]

(4) to hold, improve, clear or prepare for redevelopment any property acquired in connection with urban renewal projects; to mortgage, pledge, hypothecate or otherwise encumber such property; to insure or provide for the insurance of such property or operations of the municipality against any risks or hazards, including the power to pay premiums on any such insurance;

(5) to make and execute all contracts and other instruments necessary or convenient to the exercise of its powers under this appendix, including the power to enter into agreement with other public bodies or agencies (which agreements may extend over any period, notwithstanding any provision or rule of law to the contrary), and to include in any contract for financial assistance with the Federal Government for or with respect to an urban renewal project and related activities such conditions imposed pursuant to Federal laws as the municipality may deem reasonable and appropriate;

(6) to enter into any building or property in any urban renewal area in order to make inspections, surveys, appraisals, soundings or test borings, and to obtain an order for this purpose from the Circuit Court for the county in which the municipality is situated in the event entry is denied or resisted;

(7) to plan, replan, install, construct, reconstruct, repair, close or vacate streets, roads, sidewalks, public utilities, parks, playgrounds, and other public improvements in connection with an urban renewal project; and to make exceptions from building regulations;

(8) to generally organize, coordinate and direct the administration of the provisions of this appendix as they apply to such municipality in order that the objective of remedying slum and blighted areas and preventing the causes thereof within such municipality may be most effectively promoted and achieved; [and]

(9) to exercise all or any part or combination of powers herein granted. (Ch. 358 of Acts of 1969.)

#### Section A1-103. Establishment of Urban Renewal Agency.

The municipality may itself exercise all the powers granted by this appendix or may, if its legislative body by ordinance determines such action to be in the public interest, elect to have such powers exercised by a separate public body or agency as hereinafter provided. In the event said legislative body makes such determination, it shall proceed by ordinance to establish a public body or agency to undertake in the municipality the activities authorized by this appendix. Such ordinance shall include provisions establishing the number of members of such public body or agency, the manner of their appointment and removal, the terms of said members and their compensation. The ordinance may include such additional provisions relating to the organization of said public body or agency as may be necessary. In the event the legislative body enacts such an ordinance, all of the powers by this appendix granted to the municipality shall, from the effective date of said ordinance, be vested in the public body or agency thereby established, except:

(1) The power to pass a resolution to initiate an urban renewal project pursuant to Section A1-104 of this appendix.

(2) The power to issue general obligation bonds pursuant to Section A1-109 of this appendix.

(3) The power to appropriate funds, and to levy taxes and assessments pursuant to Section A1-102(3) of this appendix.

Section A1-104. Initiation of Project.

In order to initiate an urban renewal project, the legislative body of the municipality shall adopt a resolution which

- (1) finds that one or more slum or blighted areas exist in such municipality;
- (2) locates and defines the said slum or blighted areas; [and]

(3) finds that the rehabilitation, redevelopment, or a combination thereof, of such area or areas, is necessary in the interest of the public health, safety, morals or welfare of the residents of such municipality.

Section A1-105. Preparation and Approval of Plan for Urban Renewal Project.

(a) The municipality, in order to carry out the purposes of this appendix, shall prepare or cause to be prepared an urban renewal plan for slum or blighted areas in the municipality, and shall formally approve such plan. Prior to its approval of an urban renewal project, the municipality shall submit such plan to the planning body of the municipality, for review and recommendations as to its conformity with the master plan for the development of the municipality as a whole. The planning body shall submit its written recommendation with respect to the proposed urban renewal plan to the municipality with sixty days after receipt of the plan for review; upon receipt of the recommendations of the planning body or, if no recommendations are received within said sixty days, then without such recommendations, the municipality may proceed with a public hearing on the proposed urban renewal project. The municipality shall hold a public hearing on an urban renewal project after public notice thereof by publication in a newspaper having a general circulation within the corporate limits of the municipality. The notice shall describe the time, date, place and purpose of the hearing, shall generally identify the urban renewal area covered by the plan, and shall outline the general scope of the urban renewal project under consideration. Following such hearing, the municipality may approve an urban renewal project and the plan therefor if it finds that: (1) a feasible method exists for the location of any families who will be displaced from the urban renewal area in decent, safe and sanitary dwelling accommodations within their means and without undue hardship to such families; (2) the urban renewal plan substantially conforms to the master plan of the municipality as a whole; and (3) the urban renewal plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise.

(b) An urban renewal plan may be modified at any time, provided that if modified after the lease or sale of real property in the urban renewal project area, the modification may be conditioned upon such approval of the owner, lessee or successor in interest as the municipality may deem advisable and in any event shall be subject to such rights at law or in equity as a lessee or purchaser, or his successor or successors in interest, may be entitled to assert. Where the

proposed modification will substantially change the urban renewal plan as previously approved by the municipality, the modification shall be formally approved by the municipality as in the case of an original plan.

(c) Upon the approval by the municipality of an urban renewal plan or of any modification thereof, such plan or modification shall be deemed to be in full force and effect for the respective urban renewal area and the municipality may then cause such plan or modification to be carried out in accordance with its terms.

Section A1-106. Disposal of Property in Urban Renewal Area.

(a) The municipality may sell, lease or otherwise transfer real property or any interest therein acquired for it by an urban renewal project, for residential, recreational, commercial, industrial, educational or other uses or for public use, or may retain such property or interest for public use, in accordance with the urban renewal plan, subject to such covenants, conditions and restrictions, including covenants running with the land, as it may deem to be necessary or desirable to assist in preventing the development or spread of future slums or blighted area or to otherwise carry out the purposes of this appendix. The purchasers or lessees and their successors and assigns shall be obligated to devote such real property only to the uses specified in the urban renewal plan, and may be obligated to comply with such other requirements as the municipality may determine to be in the public interest, including the obligation to begin within a reasonable time any improvements on such real property required by the urban renewal plan. Such real property or interest shall be sold, leased, otherwise transferred, or retained at not less than its fair value for uses in accordance with the urban renewal plan. In determining the fair value of real property for uses in accordance with the urban renewal plan, the municipality shall take into account and give consideration to the uses provided in such plan; the restrictions upon, and the covenants, conditions and obligations assumed by the purchaser or lessee or by the municipality retaining the property; and the objectives of such plan for the prevention of the recurrence of slum or blighted areas. The municipality in any instrument of conveyance to a private purchaser or lessee may provide that such purchaser or lessee shall be without power to sell, lease or otherwise transfer the real property without the prior written consent of the municipality until he has completed the construction of any or all improvements which he has obligated himself to construct thereon. Real property acquired by the municipality which, in accordance with the provisions of the urban renewal plan, is to be transferred, shall be transferred as rapidly as feasible in the public interest consistent with the carrying out of the provisions of the urban renewal plan. Any contract for such transfer and the urban renewal plan (or such part or parts of such contract or plan as the municipality may determine) may be recorded in the Land Records of the county in which the municipality is situated in such manner as to afford actual or constructive notice thereof.

(b) The municipality may dispose of real property in an urban renewal area to private persons only under such reasonable competitive bidding procedures as it shall prescribe or as hereinafter provided in this appendix. The municipality may, by public notice by publication in a newspaper having a general circulation in the community (not less than sixty days prior to the execution of any contract to sell, lease or otherwise transfer real property and prior to the delivery of any instrument of conveyance with respect thereto under the provisions of this

section) invite proposals from and make available all pertinent information to private redevelopers or any persons interested in undertaking to redevelop or rehabilitate an urban renewal area, or any part thereof. Such notice shall identify the area, or portion thereof, and shall state that proposals shall be made by those interested within a specified period of not less than sixty days after the first date of publication of said notice, and that such further information as is available may be obtained at such office as shall be designated in said notice. The municipality shall consider all such redevelopment or rehabilitation proposals and the financial and legal ability of the persons making such proposals to carry them out, and may negotiate with any persons for proposals for the purchase, lease or other transfer of any real property acquired by the municipality in the urban renewal area. The municipality may accept such proposal as it deems to be in the public interest and in furtherance of the purposes of this appendix. Thereafter, the municipality may execute and deliver contracts, deeds, leases and other instruments and take all steps necessary to effectuate such transfers.

(c) The municipality may dispose of real property in an urban renewal area to any person, who owned real property which was acquired by the municipality as part of the urban renewal project, without regard to the provisions of subsection (b) above. (Ch. 194, Acts of 1968.)

(d) The municipality may temporarily operate and maintain real property acquired by it in an urban renewal area for or in connection with an urban renewal project pending the disposition of the property as authorized in this appendix, without regard to the provisions of sub-section (a) above, for such uses and purposes as may be deemed desirable even though not in conformity with the urban renewal plan.

(e) Any instrument executed by the municipality and purporting to convey any right, title or interest in any property under this appendix shall be conclusively presumed to have been executed in compliance with the provisions of this appendix insofar as title or other interest of any bonafide purchaser, lessees or transferees of such property is concerned.

#### Section A1-107. Eminent Domain.

Condemnation of land or property under the provisions of this appendix shall be in accordance with the procedure provided in the Real Property Article of the Code.

#### Section A1-108. Encouragement of Private Enterprise.

The municipality, to the greatest extent it determines to be feasible in carrying out the provisions of this appendix, shall afford maximum opportunity, consistent with the sound needs of the municipality as a whole, to the rehabilitation or redevelopment of any urban renewal area by private enterprise. The municipality shall give consideration to this objective in exercising its powers under this appendix.

Section A1-109. General Obligation Bonds.

For the purpose of financing and carrying out of an urban renewal project and related activities, the municipality may issue and sell its general obligation bonds. Any bonds issued by the municipality pursuant to this section shall be issued in the manner and within the limitations prescribed by applicable law for the issuance and authorizations of general obligation bonds by such municipality, and also within such limitations as shall be determined by said municipality.

Section A1-110. Revenue Bonds.

(a) In addition to the authority conferred by Section A1-109 of this appendix, the municipality shall have the power to issue revenue bonds to finance the undertaking of any urban renewal project and related activities, and shall also have power to issue refunding bonds for the payment or retirement of such bonds previously issued by it. Such bonds shall be made payable, as to both principal and interest, solely from the income, proceeds, revenues, and funds of the municipality derived from or held in connection with its undertaking and carrying out of urban renewal projects under this appendix; provided, however, that payment of such bonds, both as to principal and interest, may be further secured by a pledge of any loan, grant or contribution from the Federal Government or other source, in aid of any urban renewal projects of the municipality under this appendix, and by a mortgage of any such urban renewal projects, or any part thereof, title to which is in the municipality. In addition, the municipality may enter into an indenture of trust with any private banking institution of this state having trust powers and may make in such indenture of trust such covenants and commitments as may be required by any purchaser for the adequate security of said bonds.

(b) Bonds issued under this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, shall not be subject to the provisions of any other law or charter relating to the authorization, issuance or sale of bonds, and are hereby specifically exempted from the restrictions contained in Sections 9, 10 and 11 of Article 31 of the Annotated Code of Maryland (1957 Edition, as amended). Bonds issued under the provisions of this Article are declared to be issued for an essential public and governmental purpose and, together with interest thereon and income therefrom, shall be exempted from all taxes.

(c) Bonds issued under this section shall be authorized by resolution or ordinance of the legislative body of the municipality and may be issued in one or more series and shall bear such date or dates, shall mature at such time or times, bear interest at such rate or rates, not exceeding six percentum per annum, be in such denomination or denominations, be in such form either with or without coupon or registered, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium or payment, at such place or places, and be subject to such terms of redemption (with or without premium), be secured in such manner, and have such other characteristics, as may be provided by such resolution or trust indenture or mortgage issued pursuant thereto.

(d) Such bonds may be sold at not less than par at public sales held after notice published prior to such sale in a newspaper having a general circulation in the area in which the

municipality is located and in such other medium of publication as the municipality may determine or may be exchanged for other bonds on the basis of par; provided, that such bonds may be sold to the Federal Government at private sale at not less than par, and, in the event less than all of the authorized principal amount of such bonds is sold to the Federal Government, the balance may be sold at private sale at no less than par at an interest cost to the municipality of not to exceed the interest cost to the municipality of the portion of the bonds sold to the Federal Government.

(e) In case any of the public officials of the municipality whose signatures appear on any bonds or coupons issued under this appendix shall cease to be such officials before the delivery of such bond or, in the event any such officials shall have become such after the date of issue thereof, said bonds shall nevertheless be valid and binding obligations of said municipality in accordance with their terms. Any provisions of any law to the contrary notwithstanding, any bonds issued pursuant to this appendix shall be fully negotiable.

(f) In any suit, action or proceeding involving the validity or enforceability of any bond issued under this appendix or the security therefor, any such bond reciting in substance that it has been issued by the municipality in connection with an urban renewal project, as herein defined, shall be conclusively deemed to have been issued for such purpose and such project shall be conclusively deemed to have been planned, located and carried out in accordance with the provisions of this appendix.

(g) All banks, trust companies, bankers, savings banks and institutions, building and loan associations, savings and loan associations, investment companies and other persons carrying on a banking or investment business; all insurance companies, insurance associations, and other persons carrying on an insurance business; and all executors, administrators, curators, trustees, and other fiduciaries, may legally invest any sinking funds, monies, or other funds belonging to them or within their control in any bonds or other obligations issued by the municipality pursuant to this appendix, provided that such bonds and other obligations shall be secured by an agreement between the issuer and the Federal Government in which the issuer agrees to borrow from the Federal Government and the Federal Government agrees to lend to the issuer, prior to the maturity of such bonds or other obligations, monies in an amount which (together with any other monies irrevocably committed to the payment of principal and interest on such bonds or other obligations) will suffice to pay the principal of such bonds or other obligations with interest to maturity thereon, which monies under the terms of said agreement are required to be used for the purpose of paying the principal of and the interest on such bonds or other obligations at their maturity. Such bonds and other obligations shall be authorized security for all public deposits. It is the purpose of this section to authorize any persons, political sub-divisions and officers, public or private, to use any funds owned or controlled by them for the purchase of any such bonds or other obligations. Nothing contained in this section with regard to legal investments shall be construed as relieving any person of any duty of exercising reasonable care in selecting securities.

Section A1-111. Separability.

If any provisions of this appendix, or the application thereof to any person or circumstances, is held invalid, the remainder of the appendix and the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby. The powers conferred by this appendix shall be in addition and supplemental to the powers conferred by any other law.

Section A1-112. Short Title.

This appendix shall be known and may be cited as the Cambridge Urban Renewal Authority for Slum Clearance Act.

Section A1-113. Authority to Amend or Repeal.

This appendix, enacted pursuant to Article III, Section 61 of the Constitution of Maryland, may be amended or repealed only by the General Assembly of Maryland.

## NOTES

(1) The Charter of the City of Cambridge confers upon its commissioners the power to appoint a city engineer and a city attorney, and the provisions thereof authorizing the mayor to veto ordinances are not applicable thereto. *Jackson v. Cosby et al*, 179 Md. 675, 22A.2d 453 (1941).

Persons appointed by the Commissioners of the City of Cambridge as city engineer and city attorney, neither of which offices was created by the Legislature, and neither of whom received any commission, nor is required to file any official bond, and who exercise no powers, except such as are derived from the commissioners, are mere employees and not public officers required to take the oath of office prescribed by the Maryland Constitution, art. 1, sec. 6. *Jackson v. Cosby et al*, 179 Md. 675, 22A.2d 453 (1941).

(2) Ch. 483 of 1933 added a new section 63A to the Charter of Cambridge as published in Article 10 of the 1930 Edition of the Code of Public Local Laws. The section has expired by limitation, and it is not here codified. It read as follows: "63A. To borrow money on negotiable paper or certificates of indebtedness executed by the Commissioners of Cambridge, Maryland; provided the sum so borrowed shall at no time exceed the sum of Ten Thousand Dollars (\$10,000.00) unless otherwise expressly authorized by law; the authority to borrow the sum of Ten Thousand Dollars (\$10,000.00) provided for in this section is in addition to the right of the said Commissioners of Cambridge, Maryland; to borrow Ten Thousand Dollars (\$10,000.00) as provided for in Section 63 of Article 10, of Flack's Code of Public Local Laws of Maryland, 1930 Edition, title "Dorchester County," sub-title "Cambridge," which was enacted by the Acts of 1927, Chapter 38, Section 26. "This increase of Ten Thousand Dollars (\$10,000.00) in the borrowing capacity of the Commissioners of Cambridge, Maryland, as herein provided, shall extend for a period of three (3) years from the date of the passage of this Act."

(3) A fire zone and building ordinance of the City of Cambridge, which prohibits the erecting, repairing or remodeling of any building therein enumerated, without first obtaining a permit therefor from the city commissioners, is a valid exercise of the police power conferred upon the city. *Engel v. Cambridge*, 180 Md. 82, 22A. 2d 922 (1941).

Action of the city commissioners of Cambridge in refusing to grant a permit for the construction of a brick building to be used as a garage, salesroom and service station for repairing automobiles, was not discriminatory merely because other permits for other garages had been issued several years before, without objections being filed thereto, and prior to the erection of most of the residences in the neighborhood. *Engle v. Cambridge*, 180 Md. 82, 22A. 2d 922 (1941).

Action of the city commissioners, in refusing a permit for a brick building to be used as a garage, made after a hearing at which a number of citizens who objected to the granting of such permit were present, was not arbitrary. *Engle v. Cambridge*, 180 Md. 82, 22A.2d 922 (1941).

An amendment to this section in ch. 422 of the Acts of 1931 was vetoed by the Governor. See pp. 1083 and 1452, 1931 Session Laws.

(4) Thus in the Act of 1900.

(5) See the preamble to ch. 461 of 1935, which explains at length the reasons for enacting this Act. See also ch. 421 of 1935, which authorized the State Board of Public Works to convey to Cambridge a seven acre tract for use as a sewage treatment and disposal plant.

(6) The preamble to ch. 339 of 1947 was as follows:

“Whereas, the Commissioners of Cambridge have concluded that the public health, safety and welfare and the commercial and industrial growth in said municipality can best be promoted by the operation by said municipality of all facilities therein located for the generation and distribution of electricity for public and private consumption; and

“Whereas, it is desirable that said municipality be granted all needful authority to implement said conclusion by all lawful means, to the end that its objective may be achieved, provided the Public Service Commission of Maryland shall find such operations to be in public interest. . . .”

(7) The Commissioners of Cambridge, who have been granted authority to construct or acquire an electric light and power generating and distributing system can bring a suit for a declaratory decree that the Eastern Shore Public Service Company is without a franchise to serve the citizens of Cambridge with electricity as it has been doing. If the municipality exercises the powers granted to it by Chapter 339 of the Acts of 1947, both it and the Eastern Shore Public Service Company are subject to the general supervisory powers of the Public Service Commission as “electric corporations.” *Cambridge v. Eastern Shore Public Service Company*, 192 Md. 334, 64A.2d 151 (1949).

This and the following sections cited in *Poe v. Baltimore City*, 301 Md. 241, 216A.2d 710 (1966).

(8) Sections 34, 35 and 36 of Article 31 of the Code of the Public General Laws of Maryland (1939 Edition) are now codified as Sections 9, 10, and 11 of Article 31 in the 1971 Replacement Volume of the Annotated Code.

(9) Section 8 of Article 31 in the 1971 Replacement Volume of the Code replaced Section 33 of Article 31. Sections 9, 10, and 11 of Article 31 in the 1971 Replacement Volume replaced Sections 34, 35 and 36 of Article 31.

(10) Sec. 2, ch. 339 of 1947, provided that “the provisions of this Act are severable, and it is the intention to confer the whole or any part of the powers herein provided for, and if any of the provisions of this Act shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions

of this Act. It is hereby declared to be the legislative intent that this Act would have been adopted had said unconstitutional provisions not been included therein.”

(11) The Commissioners of Motor Vehicles should be replaced by a reference to the Motor Vehicle Administration.

(12) Charter Amendment No. 15, July 1, 1963, proposed to add a new section 127A to the Charter of Cambridge as codified in the 1961 Dorchester County Code, relating to discrimination in places of public accommodation. It was petitioned to referendum and defeated at a special election held on October 1, 1963, by a vote of 1,724 “for” and 1,994 “against.”

(13) Pursuant to Article III, Section 61 of the Maryland Constitution, the General Assembly of Maryland granted urban renewal powers for slum clearance to the City of Cambridge in Chapter 618 of the Acts of the General Assembly of 1961. Further changes to this power were made by Chapter 194 of the Acts of 1968 and Chapter 358 of the Acts of 1969.

Starting with the 1997 Supplement to the *Public Local Laws of Maryland – Compilation of Municipal Charters*, the urban renewal powers for slum clearance for the City of Cambridge appear as this appendix in accordance with 80 *Opinions of the Attorney General* \_\_\_\_\_ (1995) [Opinion No. 95–037 (September 21, 1995)] and Sections 10 and 11 of Chapter 14 of the Acts of the General Assembly of 1997.

Formerly, the urban renewal powers appeared as Sections 3–68 through 3–78, inclusive, of this Charter.

(14) Resolution A–2000–02, effective April 12, 2001, provided for the annexation of 60.19 acres of land. Accordingly, these annexations are simply noted pursuant to the municipal general powers section of this charter.
